

DES SOLIDES À RÉALISER AVEC LES PIÈCES DES JEUX CUBISSIMO ET SOMA (1)

Les pièces de « CUBISSIMO »

Les pièces du « cube SOMA »

Les dessins des pages qui suivent sont à colorier en tenant compte des solutions trouvées. Les solutions proposées à partir de la page 6 ne sont pas nécessairement uniques).

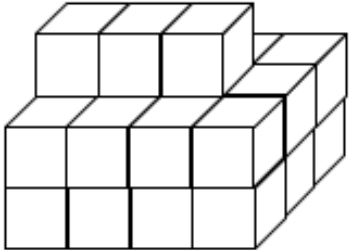

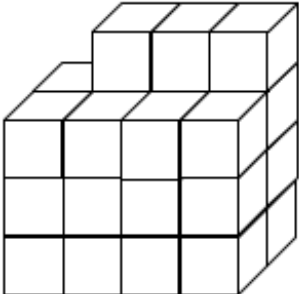

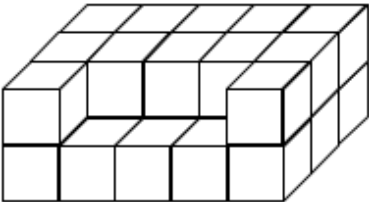

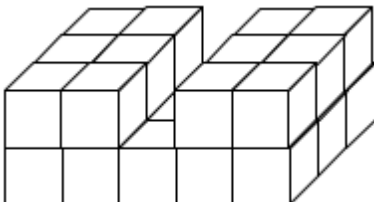

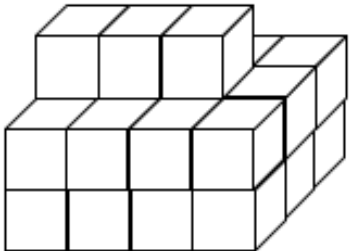

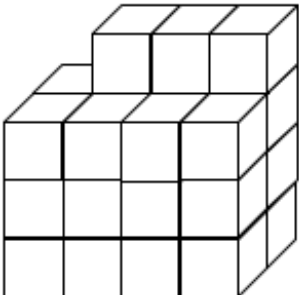

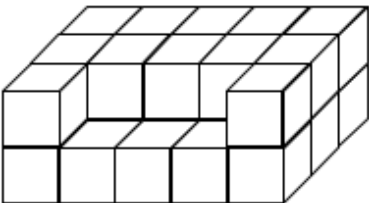

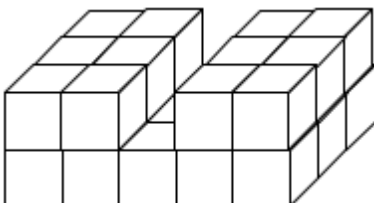

Des solides à réaliser avec les sept pièces de l'un ou l'autre jeu (1)

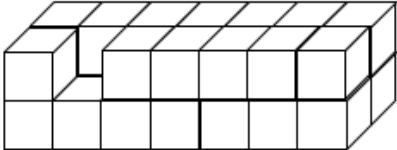

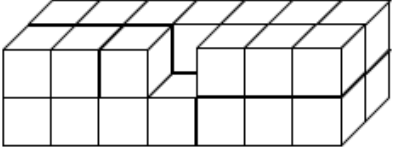

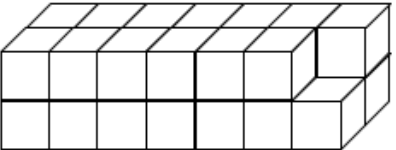

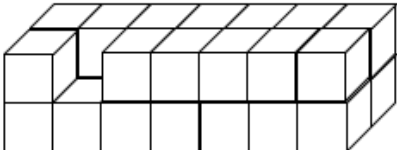

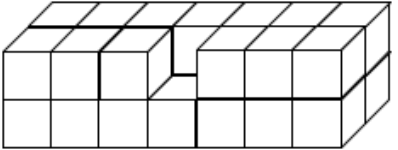

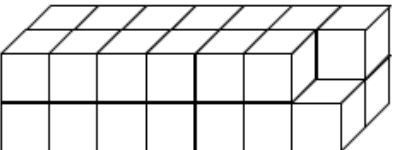

Des solides à réaliser avec les sept pièces de l'un ou l'autre jeu (1)

Des solides à réaliser avec les sept pièces de l'un ou l'autre jeu (3)

<p>Solide 9 <i>Cubissimo</i></p>  <p>A 3D wireframe of a solid made of small cubes. It consists of a 4x4x2 base with a 3x1x1 block on top of the back-left corner.</p>	<p>Solide 10 <i>Cubissimo</i></p>  <p>A 3D wireframe of a solid made of small cubes. It consists of a 4x4x2 base with a 3x1x1 block on top of the back-left corner.</p>	<p>Solide 11 <i>Cubissimo</i></p>  <p>A 3D wireframe of a solid made of small cubes. It consists of a 4x4x2 base with a 3x1x1 block on top of the back-left corner.</p>	<p>Solide 12 <i>Cubissimo</i></p>  <p>A 3D wireframe of a solid made of small cubes. It consists of a 4x4x2 base with a 3x1x1 block on top of the back-left corner.</p>
<p>Solide 9 <i>Soma</i></p>  <p>A 3D wireframe of a solid made of small cubes. It consists of a 4x4x2 base with a 3x1x1 block on top of the back-left corner.</p>	<p>Solide 10 <i>Soma</i></p>  <p>A 3D wireframe of a solid made of small cubes. It consists of a 4x4x2 base with a 3x1x1 block on top of the back-left corner.</p>	<p>Solide 11 <i>Soma</i></p>  <p>A 3D wireframe of a solid made of small cubes. It consists of a 4x4x2 base with a 3x1x1 block on top of the back-left corner.</p>	<p>Solide 12 <i>Soma</i></p>  <p>A 3D wireframe of a solid made of small cubes. It consists of a 4x4x2 base with a 3x1x1 block on top of the back-left corner.</p>

Des solides à réaliser avec les sept pièces de l'un ou l'autre jeu (4)

<p>Solide 13 <i>Cubissimo</i></p>  <p>A 3D wireframe of a rectangular prism with a 2x10x2 grid of cubes. The top-left corner is missing one cube, and the bottom-left corner is missing one cube, creating a notch on the left side.</p>	<p>Solide 14 <i>Cubissimo</i></p>  <p>A 3D wireframe of a rectangular prism with a 2x10x2 grid of cubes. The top-right corner is missing one cube, and the bottom-right corner is missing one cube, creating a notch on the right side.</p>	<p>Solide 15 <i>Cubissimo</i></p>  <p>A 3D wireframe of a rectangular prism with a 2x10x2 grid of cubes. The top-right corner is missing one cube, and the bottom-left corner is missing one cube, creating a notch on the right side.</p>	
<p>Solide 13 <i>Soma</i></p>  <p>A 3D wireframe of a rectangular prism with a 2x10x2 grid of cubes. The top-left corner is missing one cube, and the bottom-left corner is missing one cube, creating a notch on the left side.</p>	<p>Solide 14 <i>Soma</i></p>  <p>A 3D wireframe of a rectangular prism with a 2x10x2 grid of cubes. The top-right corner is missing one cube, and the bottom-right corner is missing one cube, creating a notch on the right side.</p>	<p>Solide 15 <i>Soma</i></p>  <p>A 3D wireframe of a rectangular prism with a 2x10x2 grid of cubes. The top-right corner is missing one cube, and the bottom-left corner is missing one cube, creating a notch on the right side.</p>
